VOL. XLII. THE CORSICANA SEMI-WEEKLY LIGHT, CORSICANA, TEXAS, TUESDAY, MAY 17, 1927. NO. 5

CHARGED ATTEMPT WAS BEING MADE TO SANCTION BEER

By Associated Press.
Austin, Texas, May 16.—After a lively half hour in which anti-prohibitionists were charged with trying to put legal sanction in beer, the House today left hanging in the air a resolution seeking taxation of "malt syrup" 50 cents a gallon for benefit of the public schools.

The House was plunged into confusion when it developed that time for consideration of resolutions had expired and the matter was carried over until Tuesday.

Governor Moody would be asked to submit the question of the taxing malt syrup under the resolution, by Representative Sam Gates of Runge, who declared that "there are millions of bottles of intoxicating home brew being made daily in Texas," and that "Dallas alone made over eight million bottles last year."

Would Place \$5 Tax.
Representative J. F. Wallace attacked the attempt as one that would give "semi-official recognition of an unlawful practice." He offered an amendment to make the tax \$5. "It is just another idea of the anti-prohibitionists to put legal sanction on beer by taxing it under the guise of helping the schools," he declared.

Representative Finlay offered a substitute amendment to make the tax \$1.

Representative George Purl declared such a resolution would "put the governor in an embarrassing position either way he should act." His attempt to refer the resolution to the liquor traffic committee was defeated, however.

Representative Holland of Houston wanted to know if Purl would support an amendment to include taxation of "corn."

Purl asked him what he meant by "corn." The House laughed.

Proposal Draws Fire.
Wallace argued for a \$5 levy to "tax malt out of existence" and drew the fire of Representative Holland and George Kemble of Fort Worth. The latter asked if there is any law against selling malt syrup. Holland made the point that a prohibitive tax "would be unconstitutional."

Representative Morse of Houston finally was successful with his point of order that time for consideration of resolutions had expired.

Slashes Eleemosynary Appropriation Bill

By Associated Press.
Austin, Texas, May 16.—Proposed slashes totaling \$471,920 were offered in 53 amendments to the \$10,000,000 eleemosynary appropriations bill today by the appropriations committee, and the "economy bloc" gave notice that it will seek additional amendments bringing the total cuts to more than \$1,000,000.

The committee amendments had not been adopted when noon recess was taken until 2 p. m. They embodied cuts agreed upon at Saturday's meeting of the committee.

Nearly \$200,000 was chopped out of the prison system budget, a total of \$170,000 for fresh vegetables for insane hospitals was dynamited as also was all funds for treatment of acute cases. Building

ELEVEN YEAR OLD BOY DEAD AS RESULT CRASH NEAR RICE

From Monday's Daily:
As the result of an interurban automobile crash Monday afternoon about 3 o'clock at Haynie Stop one mile south of Rice, Wilburn Cox, aged 11 years is dead and J. T. Bolt, aged 75 years and his son, J. N. Bolt, aged 45 years, are in the Navarro county hospital seriously injured. Guy Cox, aged 9 years, also in the car, is reported to have suffered minor injuries.

The dead boy is the son of S. S. Cox, who is section foreman on the H. & T. C. The Cox family live near where the accident occurred.

The elder Bolt is the more seriously injured, suffering from a broken right leg, cut on head, many body bruises and probably internal injuries. His son, Jim Bolt, is badly bruised, his back is scalded and otherwise injured. The head of the dead boy was completely severed from his body.

According to reports from Rice, Mr. Bolt had picked up the two Cox boys to carry them home from school. They were going south in the automobile when they turned to cross to the west side of the track, where the section house is located, the crash followed. Details of just how it happened are lacking.

The injured were brought to Corsicana on the interurban car in the crash and were rushed to the Navarro County Hospital. Conductor McAdams and Motorman Thames were in charge of the interurban. The automobile was demolished.

Dr. Carter of Rice and Lillith Bolt accompanied the injured to Corsicana.

According to statement by Jim Bolt who was driving the car he did not know the interurban was any where near until it was right on him and the dead boy evidently became excited as he jumped from the automobile directly in the path of the interurban. The interurban then hit the automobile turning it over on the driver and other occupants.

LITTLE CHILD IS DROWNED IN WATER PUDDLE AT BORGER

By Associated Press.
Borger, Texas, May 13.—Howard Ray Catts, aged two, son of Mr. and Mrs. Raymond Catts, was drowned when he fell into a shallow puddle of water during the rain storm yesterday afternoon. Missed for a half hour, searchers found the body face down in the small pool.

Mr. and Mrs. Catts formerly lived in Corsicana, where their many friends will regret to learn of the death of their little son.

Plains—Contract awarded for construction of \$50,000 new courthouse at Plains.

Funds were disallowed in several institutions, including \$25,000 at Abilene and \$50,000 at Austin.

TEN MAJOR BREAKS IN LEVEES SPREAD WATERS OVER STATE

By Associated Press.
New Orleans, May 16.—Nine more flood deaths, the first in Louisiana, were recorded today as waters spewed by the Mississippi into the low lands continued their gradual sweep across South Central Louisiana to the Gulf of Mexico.

A widow and her eight children, driven by the invading waters to the attic of the little home she had refused to abandon, were the first victims as the flood widened its path and inundated Plaquemine, below the Bayou Des Glaises breaks along Big Bend.

A twenty mile gap already had been eaten away in the Bayou Des Glaises levee line and engineers said that they expected the entire fifty miles stretch to crumple before the impact of the flood today. Bayou Des Glaises is approximately 150 miles Northwest of New Orleans on the west side of the Mississippi.

Along with the news of the first flood deaths in the state, there came news of other hundreds marooned on house tops in the cane producing lowlands of St. Landry Parish.

The French speaking Acadians of the section discredited news of their danger and clung tenaciously to their homes until the water was upon them. So swiftly was the current rushing upon them that the local skiffs were useless and motor boats were being dispatched to them.

Meanwhile couriers were speeding before the flood to Melville, Fort Barre, Arnaudville, and many other points to warn the inhabitants to flee. A concentration camp was being set up for them at Opelousas.

Hundreds of refugees continued to stream into other camps in the vicinity.

New Orleans, La., May 16.—Rolling relentlessly down the fertile west side of the Atchafalaya basin, flood waters from ten major crevasses in the Bayou Des Glaises levees today drew closer to St. Mary and St. Martin parishes, spreading devastation on its way to the Gulf of Mexico. The threatened section is in the center of the "Evangeline country" made famous by Longfellow.

IKYK's shrld shrld shrld shrld

The Bayou Des Glaises crevasses are approximately 150 miles northwest of New Orleans, on the west side of the Atchafalaya river.

Crops Are Wiped Out.
Avoyelles and Saint Landry parishes, with their green crops of corn and sugar cane, already have been submerged by the torrents tearing through the Bayou Des Glaises levees and thousands of persons have been driven from their homes. Other thousands are preparing to seek safety.

Work on the protection levee between Port Barre and Butte La Rose in St. Martin parish was abandoned last night when it became apparent that the flood moving down the basin through the Bayou Des Glaises levees would be from two to three feet higher than the dike.

Fort thirty days, crews have been strengthening embankments. Scores who had volunteered to aid in the work left for their homes to prepare to flee before the advancing tide.

Water Covers Area Rapidly.
Army engineers estimated that the water flowing from Bayou Des Glaises had covered 600 square miles, but that the rapidly with which it spread would be lessened somewhat from now on. Engineers also said that the entire stretch of fifty miles of levees along Bayou Des Glaises probably would be carried away.

Armen returning from trips over the dykes said that the Big Bend levees were practically submerged for twenty miles. The stream of refugees into Mansura and Marksville continued unabated as the flood of fifty coast guard surf boats, manned by trained life saving crews from the Atlantic, Great Lakes and Gulf coast stations, loomed residents who had stayed in their homes in the face of repeated warnings, combed the area, bringing out mar-

RUTH SNYDER AND GRAY LEFT FOR DEATH HOUSE AT SING-SING MONDAY

See Mother?
Lorraine Snyder presents a delicate human problem. Should she be permitted to visit her mother, Ruth Snyder, while the murderess is in the death house at Sing Sing? Would the horror of a visit under such conditions remain with her through life? Or would refusal to permit her to see her mother affect her more? Lorraine is shown with her grandmother, Mrs. Brown.

CAR TURNS OVER EARLY MONDAY ON ENNIS HIGHWAY

Mrs. Sarah Bratcher, aged 22 years, wife of O. E. Bratcher, employee of the Humble Oil Company in the gasoline department, with headquarters at Mildred, several miles southeast of Corsicana, was almost instantly killed at 8:30 o'clock Monday morning, four miles south of Ennis, when the automobile in which she, her husband and three small children were riding, turned over, crushing her chest. The injured woman was taken to a near-by farm house where she died within a few minutes. The other occupants of the car escaped with minor injuries and cuts.

The Sutherland ambulance, driven by J. A. McMahon, answered the call and brought the body to Corsicana.

Funeral services will be held here Wednesday with interment here.

Surviving are her husband, one

By Associated Press.

Ossining, N. Y., May 16.—The gates of Sing Sing prison swung open today to admit Mrs. Ruth Snyder and Henry Judd Gray and clanged shut behind them. Barring successful appeal the Queens Village housewife and her corset salesman paramour, jointly convicted of the murder of her husband, will never pass through these gates again alive.

The trip from Queens county jail to the island City was at breakneck speed and with a heavy escort. As the two closed automobiles bearing the guarded prisoners swung away from the jail half a dozen armored motorcycles led the way through traffic held up at every intersection to let the party through. A dozen cars full of reporters brought up the rear and were hard put to keep the pace.

By Associated Press.

New York, May 16.—Mrs. Ruth Snyder and Henry Judd Gray today began their journey to Sing Sing's death house, where they are under sentence to die for the murder of Mrs. Snyder's husband, Albert Snyder, magazine art editor.

Mrs. Snyder, having said goodbye to her mother and her 9-year-old daughter, Lorraine, was hurried into an automobile where she sat between two women deputy sheriffs. Gray, her former paramour, was taken in a second automobile, manacled to two under sheriffs.

Their automobiles were escorted from the jail in Long Island City and through New York by a squad of motorcycle police.

Mrs. Snyder was dressed in the black coat and hat she wore during the trial. Her face was pale, but she seemed to bear up well. Gray walked with brisk steps, his head erect, as the sheriffs led him from his cell.

The route to Ossining led them over a road they traveled in 1925 when they made an upstate trip in Gray's car. At that time, Albert Snyder was at the Snyder home in Queens' Village, keeping house and caring for little Lorraine. But Albert Snyder thought his wife was visiting friends, and Gray's wife, in her East Orange, N. J., home with their daughter, thought the little corset salesman was calling on the trade.

child, two step-children and a number of relatives at Pampa, Texas.

Mr. Bratcher stated that he did not know exactly how the accident occurred. An automobile was proceeding ahead of the Bratcher car, it was stated, and the car pulled out of the road to make a turn, forcing the Bratcher car off a bridge, the car turning over.

Other than damages to the top and windshield, the automobile was not damaged and was driven on to Corsicana.

Mr. Bratcher has been in the employ of the Humble Oil Company for three years.

CATCHES BURGLAR BUT INTRUDER GETS THROUGH WINDOW

B. R. Estes, living at 413 West Collin street, had his home robbed some time ago. Since that time he states that on Sunday night his home has been visited by intruders. Last night he stayed away from church to watch for the prowler, but sent his family away.

Shortly a man came and removed a screen from a window and raised the window and crawled in. Mr. Estes switched on the light and told his visitor to hold up his hands. The visitor failed to obey but dived through the window and got away. Mr. Estes gave a good description of the man, who he says was white and a young man.

Sliding Home Causes Death of School Boy

Pittsburgh, May 16.—Blood poisoning which developed from a leg injury suffered in "sliding home" in a baseball game, caused the death today of Richard Matthews, 14-year-old school boy.

ALLEGED DRUNKEN DRIVER SENTENCED SIXTY DAYS IN JAIL

Dallas, Texas, May 13.—A jury here Friday offered to support a defendant's family after sentencing him to 60 days in jail on a charge of driving an automobile while intoxicated.

M. M. Lockhart, carrier for a Dallas newspaper, was the defendant. The evidence showed he collided with another motorist March 20, and that when his demand for \$50 was refused, he took the man to jail. But police arrested Lockhart and let the other man go.

"Jail sentences seem to be the only way to stop this practice of drunk driving," said one juror. "We want you to start to serve the 60 days but jurors agreed to contribute to the support of his family if his imprisonment worked a hardship on them."

Lufkin—Two new brick buildings to be erected corner Second Street and Shepherd Avenue.

JOHNNY FISHER IN HOUSTON AT TIME OF SLAYING OF BONDS

By Associated Press.
Houston, Texas, May 13.—Johnny Fisher announced here Friday that he is "ready to report to the authorities of Bell county if they want to question me about the killing of Albert Bonds, although I was in Houston at the time of his death."

Fisher, 21, is the son of the late Wiley Fisher, Temple chief of police, who was killed by Bonds last July. He was mentioned with his brother, Monroe Fisher, in connection with the killing of Bonds Wednesday at Belton. Johnny Fisher reported to Sheriff T. A. Binford Friday and left information as to where he might be found.

DISTILLED WATER LATEST TREATMENT SEVERAL DISEASES

By Associated Press.
New York, May 13.—Fifteen to twenty-five drops of distilled water injected in the vein of a patient is efficacious in treatment of asthma, hay fever, neuritis, neuritis, rheumatism and other diseases, the Homeopathic Medical Society of the county of New York was told in an address last night by Dr. Wil-

lam J. Schutz, director of the physiotherapy department of the Sacred Heart hospital at Allentown, Pa.

He asserted no discomfort is experienced following the injection of water and there is no intensification of symptoms. He said the treatment is entirely safe and far more rapid in action than the usual agencies used for injection in the treatment of disease.

COTTON TEXTILE INSTITUTE PRAISED BY COTTON FACTOR

By Associated Press.
Atlantic City, N. J., May 13.—James P. Gossett of Williamstown, S. C., president, in his address at the opening of the 31st annual convention of the American Cotton Manufacturers' Association, today said that he regarded the formation of the cotton textile institute as the "most conspicuous and brilliant transaction in the whole history of the industry."

"The organization of this great institute has done more," he said, "to bring together and to harmonize the North and the South than has any other single act, political or otherwise, since the Civil War, save only the calling out, commissioning and putting into active service by President McKinley during the Spanish-American war of those matchless soldiers and ex-Confederate generals. McKinley called forth the generals of carnage and war. The institute has drafted the service of captains and kings of industry and peace."

Devoting a large part of his address to the plight of the Southern cotton farmer, Mr. Gossett said the institute could not reach the full fruition of its hopes of stabilizing the industry on a basis of safe and sane prosperity without including in its labors and research work the development and advancement of the cotton growers.

"Some way," he asserted, "must be found to bring the grower into the institute and to make him a component part of it."

"We have just harvested the largest cotton crop in the history of the country—a crop of more than 18,000,000 bales, but according to all reports it will average very low in grade, possibly below strict low middling, due largely to improper handling."

"What a terrible bill of indictment against the Southern farmer: to produce a crop of such magnitude, and then let it go to waste is to rebuke the divine providence."

HOUSE DECIDES TO TAKE UP BILL FOR EXTRA SCHOOL AID

By Associated Press.
Austin, Texas, May 13.—A compromise bill carrying \$4,500,000 designed to supplement the available school fund so as to provide a \$15 per capita apportionment was finally passed by the House late today. One and one-half million is allotted to the first year and the remainder to the second year of the biennium.

By Associated Press.
Austin, Texas, May 13.—After lengthy jockeying between the appropriations committee, the "economy bloc" and the 78 "neutrals" the House today decided to take first action on a revised bill carrying \$4,500,000 to supplement the available school fund for the coming biennium.

The measure, cut from an original \$5,480,000 is one of the seven House money bills calling for a grand total of more than \$53,000,000 which the retrenchment faction declares must be slashed to come under the expectant revenue.

A cry for action was sounded by the "neutral faction" today through Representative George Purl.

Seventy-eight members, he said, are waiting to get to work while the appropriations committee "is diving out one door into a caucus and the economy bloc is scouting out another for a confab."

Chairman Teer reported to the House that the appropriation committee now computes that \$4,500,000 will be sufficient to make the available school fund supply a \$15 per capita apportionment. That rate was endorsed at a meeting late yesterday of the economy faction, which also favored \$2,000,000 instead of \$3,000,000 for rural aid.

The amended supplemental school fund bill was to be taken up this afternoon, the rural aid bill next. Results of action on them will guide the appropriations committee on cuts to be made on the other pending bills.

The Senate adjourned yesterday until Monday.

REINSTATEMENT OF SUSPENDED RANGER IS EXPECTED SOON

By Associated Press.
Austin, Texas, May 13.—A. P. Cummings, Texas Ranger, suspended recently for his alleged unwarranted arrest of a Borger newspaper man and asserted attempts to suppress reports of the affair, probably will be reinstated soon, it was learned today.

Sisal Case Sent Back For Trial

By Associated Press.
Washington, May 16.—The case appealed by the Government against the Sisal Sales Corporation and others, who were alleged to have restricted the binder twine industry by an arrangement with a Mexican corporation was sent back to the lower courts by the Supreme Court today for trial on its merits.

FUNERAL SERVICES SUNDAY AFTERNOON FOR MRS. WALTON

Funeral services for Mrs. Alice Walton, aged 53 years, wife of George W. Walton, Navarro county Democratic chairman, who died at the family home two miles east of Corsicana Saturday afternoon at 4 o'clock following several months of ill health were held at the family home Sunday afternoon at 4 o'clock with interment in Oakwood cemetery.

The services were conducted by Rev. F. P. Culver and Rev. Joe Patterson, pastor and assistant pastor, respectively, of the First Methodist church.

Mrs. Walton was a native of Navarro county, being the daughter of W. T. and Sarah Jane Wilson. She was born in Petty's Chapel community, October 15, 1873. She was married to George W. Walton, February 12, 1891.

Surviving are her husband, ten living children, Clark Walton, Dallas; Jim Walton, Corsicana; Wesley Walton, Corsicana; George Walton, Jr., Dallas; Miller Walton, Corsicana; Robert Walton, Dallas; Lottie Walton, Corsicana; Miss Hattie Alice Walton, Corsicana; Miss Minnie Pearl Walton, Corsicana; Preston Walton, Corsicana. Two children had preceded her in death, Miss Letha Walton, and an infant daughter, Janie Walton; one brother, Callie Wilson, Louisiana; two brothers, deceased, Alonzo and Ira Wilson.

Active pallbearers were Frank Wilson, W. S. Barnes, John C. Hughes, E. F. (Mose) Wells, LeRoy McFarce, Roy Palmer.

Honorary pallbearers were Walter Hayes, C. C. Walton, Walter Seelig, Harold Blankenship, Cecil Gans, C. C. Abertson, J. H. Woods, Hawk Decker.

WITNESS STATES NOTED OUTLAW TOLD OF KILLING BISHOP

By Associated Press.
Oklahoma City, May 13.—Bert Meredith, former convict in the state penitentiary today testified that Ray Terrell, fugitive bank robber, told him that he killed Luther Bishop, state detective, who was shot to death in his home here last December.

Meredith was testifying as a defense witness at the trial of Mrs. Edith Bishop, charged with murdering her husband.

Meredith made the statement after state attorneys had objected unavailingly. He said he saw Terrell at Seminole, Okla., April 10, and that the statement was made in the presence of Matthew Kimes, youthful bank robber, who is also a fugitive from justice.

Terrell was sitting in an automobile, dressed as a woman when Meredith talked to him, the former convict said.

"Terrell had on two guns," Meredith said, "one was a pearl handled gun, also a Browning machine gun, and several shot guns."

MRS. RUTH SYNDER AND FORMER LOVER SENTENCED TO DIE

By Associated Press.
New York, May 13.—Mrs. Ruth Snyder and Henry Judd Gray today were sentenced to die in the electric chair at Sing Sing the week of June 20 for the murder of Mrs. Snyder's husband, Albert Snyder, magazine art editor.

Neither defendant showed any emotion as Justice Townsend and Scudder pronounced sentence. Mrs. Snyder was dressed in black, the same costume she wore during the trial. A matron stood on each side of her, but beyond a clasping and unclasping of her hands, she did not show the strain.

Gray's figure was tense. He stood about five feet from his blonde paramour, but neither looked at the other.

Prior to imposition of sentence, counsel for both Gray and Mrs. Snyder made motions asking that the verdict be set aside. Justice Scudder denied the motions.

A crowd not nearly so large as the smallest to attend the trial was in the court room when sentence was imposed.

There were no demonstrations. Neither Gray nor Mrs. Snyder replied when the clerk of court asked if they had anything to say as to why sentence should not be imposed. Attorneys for both intimated that the defendants had "nothing to say at this time."

Appeals from the sentences are contemplated. These will be made direct to the court of appeals instead of the appellate court, as is provided by law in cases of death penalties. It is expected that six months will elapse before decision on these appeals are given. Neither defendant has appealed at present.

Court attaches said Mrs. Snyder and Gray would be taken to Sing Sing next Monday.

GENEVA'S ECONOMIC CONFERENCE DEALING WITH FARM PROBLEMS

By Associated Press.
Geneva, May 13.—Of interest to American farmers is a resolution drawn up by the agricultural committee of the International Economic conference.

It says that farmers' co-operative societies will increase in usefulness in proportion as they multiply their relations with consumers' co-operative associations. By collaboration between these organizations, the resolution said, the superfluous middle man will be eliminated and prices advantageous to both parties will result.

The committee recommends that governments support the co-operative movement through the creation of agricultural bureaus at universities and by refraining from adopting "detrimental fiscal policies."

It favors international co-operative agreements as means of regularizing production and stabilizing prices.

HARRY LEIGHTON PASSED AWAY EARLY MONDAY MORNING

Harry J. Leighton, aged 60 years, formerly chief of the Corsicana fire department, died at his home here, 729 West Ninth avenue, Monday morning at 1 o'clock, following an illness of several months and the remains were interred in Oakwood cemetery Monday afternoon at 1 o'clock. The funeral services were conducted by Rev. Hugh Miller, Church of Christ minister.

Surviving are his wife, one daughter, Mrs. J. M. Reed of Dallas; two grandchildren; two brothers, Chas. Leighton, Corsicana; Warren Leighton, Dallas; two sisters, Miss Anna Leighton, Little Rock, Ark.; Mrs. Douglas Hannon, Dallas.

For many years Mr. Leighton was one of the best known bricklayers in this section of the State and often did contracting in his line of work. He was a courteous, genial and well liked man and had hosts of friends who will deeply regret his passing away and will sorrow with his loved ones in their hour of grief.

TRINITY SAND TEST NEAR ENNIS PLUGGED AND ABANDONED

The Rachel I. Trinity sand test four miles southwest of Ennis, which was drilled by W. M. Peck of Corsicana, has been plugged and abandoned at 3536 feet. The well has been attracting considerable interest because it was exploring a new field, but no showing of oil was found in the well. The test was drilled on a 4000 acre block, which includes the heart of Ennis. The recent test is a result of a showing of oil found in a water well drilled in the center of Ennis about two years ago.

The Pandem-Bassett 1 at Kosse bailed dry Sunday at 4532. Casing has been set in this well to a depth of 4510 feet. A slight showing of oil was found several days ago but failed to reappear when casing had been set. The contract on the well calls for 5500 feet, and plans are being made to drill the hole to the contract depth which will be about 1000 feet more.

The Fred Haynes et al. Hearne 1, between Mabank and Kerens in Henderson county was reported at 2750 Monday. This well is expected to come out of the chalk within the next few days.

H. C. Johnston's C. L. Jester 1 about three miles east of Corsicana is down to 1100 feet, drilling in broken shale and sand. A slight showing of oil was found in this formation but not in sufficient quantities to justify setting casing. The well will be drilled to the top of the chalk about 1700 feet. Charles Kessinger is drilling the well.

CORSICANA MAN IS ROBBED NEAR LOVE BRIDGE BY TWO MEN

W. L. Miller, living at 321 West Seventh avenue, driver of a truck, related an experience Sunday with hi-jackers near Love Bridge, south of Corsicana. Mr. Miller was in Streetman and while there remembered seeing two men in speedy roadster in that town. These same men passed him twice on the road before he reached Richland creek. Mr. Miller became suspicious and concealed \$72 in cash he had on his person in order that if he was held up he would not lose the money to his followers.

Later the men came up with him near Love Bridge, he stated, and held him up and robbed him of his purse containing \$75. They failed to find the concealed money. He gave a good description of the men.

Another man, Lee Speer, reported to the police department that he came into Corsicana on a freight train with another man, and that while he was asleep, his friend and \$100 he had on his person disappeared. Search for his erstwhile pal failed to locate him.

Read the Sun—got all the news.

SYNDICALISM LAWS OF CALIFORNIA AND KANSAS ARE UPHELD

By Associated Press.
Washington, May 16.—The criminal syndicalism law of California today was declared valid and constitutional by the Supreme Court, in a case brought by Charlotte Anita Whitney.

Miss Whitney's conviction for participation in the organization of the communist labor party in California was approved.

Justice Sanford in delivering the opinion said the law was within the discretion of the Legislature, and that freedom of speech does not confer the right to speak without responsibility.

It was proper, the court asserted, to control utterances inimical to the public welfare.

Miss Whitney had insisted that the law was an unconstitutional restraint upon her right of speech.

She had participated in the meetings in opposition to the extreme radicals and that she did not favor the change in industrial or practical conditions through the exercise of force. The state contended that she had continued her affiliation with the California communist labor party after it had adopted the Chicago platform of the national organization of that party and after it had committed itself to advocacy of radical methods, including the use of force.

Kansas Law Upheld; Conviction Reversed

By Associated Press.
Washington, May 16.—The Kansas Criminal Syndicalism law was upheld today by the Supreme Court.

The question reached the court in an appeal of Harold B. Fiske, convicted under the statute because of his activities at Geneva, Kansas, as an organizer for the I. W. W.

The court held, however, that membership in and work as an organizer for the I. W. W. did not constitute an offense under the statutes which the State could punish, and that Kansas therefore had failed to prove that Fiske was guilty of advocating criminal syndicalism.

It was not sufficient, the court asserted, to show that the preamble to the constitution of the I. W. W. was in Fiske's possession. The question, it said, was whether the preamble was sufficient to show intention to use unlawful method, and the court declared a review of it showed it was not sufficient to warrant the conviction.

By Daniel Carter Beard,
National Scout Commissioner.

A bowlful of unbounded love for Boys, one pint of absolute faith in American institutions, two teaspoons of American pioneer blood, one tablespoonful of thrills, one table-spoonful of romance, two table-spoons heaping of adventure, a tea-spoonful of Indian tradition, a tea-cup of the vigor and grit of the Puritans, a teacup of the chivalry of the cavaliers, a quart of the idealism of John Burroughs, and Henry Van Dyke, one heaping cup of sentiment, the whole seasoned well with patriotism and character and stirred up with the golden rule, after which sprinkle well with the Stars and Stripes and serve red hot!

The county-wide campaign for funds will begin Monday morning, May 16th for the Navarro County Boy Scout Council, headed by Chas. G. Jester, member of the Executive Board.

Bulletins containing all the facts concerning Scouting in Navarro county are now being distributed by Scouts and through the mail, together with a tentative program for the year 1927, and 1928 which will be of interest to those interested in boys.

W. A. Tarver, president of the Boy Scout Council, is attending the National Executive Board meeting of the Boy Scouts of America in New York and upon his return will make a tour of the county in the interest of Scouting. Plans are being made now to hold rallies at each place that has a Boy Scout Troop.

The interest in Scouting in the County as well as in Corsicana is growing. Due to the condition of the weather each week-end for the past several weeks the Scouts have not been able to take hikes to the woods, but as soon as it clears off sufficiently a number of hikes will be held. Boys are qualifying in tests near their home were possible, in order that they may be ready for Camp and Summer activities.

The place for the summer camp has not been selected, however other than plans for camp have been settled and a Camp has been assured. A Camp bulletin will be mailed to all Scouts in the county within the next few days giving complete details.

ports to the constabulary said, were for the purpose of ousting government provincial constabulary and placing the insane Filipino in office as provincial governor.

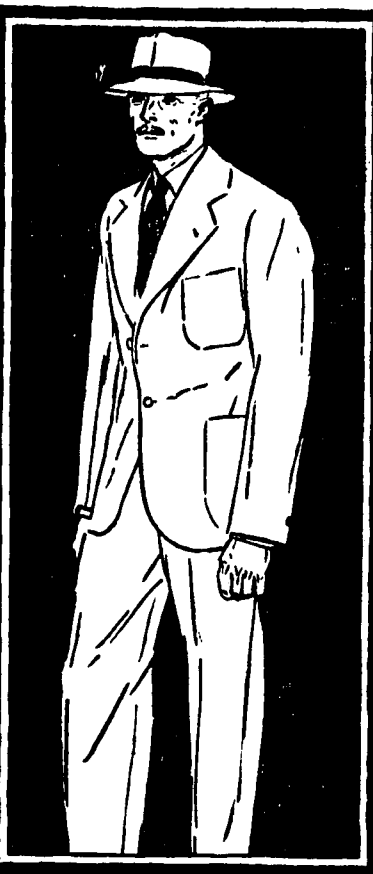

Although many ring leaders in the uprising were reported arrested, additional outbreaks were feared.

Intrachero was recently taken into custody and was awaiting transportation to an insane asylum when he escaped and organized his band.

The Imbroglio now has encompassed La Carlota, Iago and Sila, and continues in Victoria.

All officers in the Filipino constabulary said that mobs at Victoria disarmed the police and thereby obtained weapons with which to carry the fight to other communities where the same procedure of attacking the police and taking their weapons was followed.

CLOSING EXERCISES OF WORTHAM SCHOOLS START NEXT SUNDAY

Special to the Sun.
Wortham, Texas, May 13.—The Wortham High School will begin the closing exercises with the baccalaureate address at the First Baptist Church Sunday morning at eleven o'clock. President S. H. Whitley of the Teachers College at Commerce will deliver the address. Congressman Luther Johnson will deliver the address to the high school graduates Friday evening, May 20, at the high school auditorium.

Women Save Needless Steps By Improvement of Kitchens

By Associated Press: Studies have revealed that farm women walk unnecessary miles each day in the preparation of meals because of inconvenient location of equipment. Water supply is one of their greatest troubles. To meet the need for kitchen improvement, home demonstration agents, co-operatively employed by the Department of Agriculture and state agricultural colleges, have included kitchen improvement work in their extension programs. Nationwide interest has been aroused in these contests. Some of the earlier work was done in Virginia in 1921, when women in three counties participated in such contests. The work now is being carried on in some form in practically every state.

Kitchens are visited usually by a member of the state extension service, who brings a score card enumerating the essentials of a well-planned kitchen. The housewife and the specialist compare the lighting, arrangement of equipment and other features of the kitchen to be improved with the standard set in the score card and talk over the situation. Winners are determined by the score card method, and frequently local merchants interest themselves to the extent of offering prizes for the greatest improvement over the original kitchen arrangement, the greatest improvement made with the least expenditure and the most ingenious methods used in solving difficulties.

THREATENING NOTE ACCOMPANIED PARCEL ADDRESSED FULLER

By Associated Press: Boston, May 14.—A package containing dynamite, addressed to Governor Alvan T. Fuller, was intercepted by postal authorities here today.

The parcel, which was accompanied by a letter threatening violence if Nicola Sacco and Bartolomeo Vanzetti are executed was taken from the mails by an alert employee at the parcel post station.

The letter was forwarded today to the governor with an accompanying letter from Postal Inspector Park D. Colvin.

The threatening note, which was tied to the parcel with wire, read: "Governor of Massachusetts: I have succeeded in getting one of a ton of this. If Sacco and Vanzetti are going to be murdered I am going to get more and use it. (Signed) A Citizen of the World."

Inspector Colvin said in his report to the governor: "The inclosed threatening communication was found at the Burlington Avenue parcel post station of this office on May 10, bound to a parcel wire."

"From 2:30, a person an employee handling the parcel suspected that it contained unobtainable matter. It was withdrawn from the mails. On examination by Inspector J. E. A. Sullivan, the parcel was found to contain dynamite, which has been disposed of. This office has no clue to the identity of the person who mailed the parcel and we are unable to determine in what section of the city the mailing took place."

IS CHARGED WITH THREE OTHERS WITH FEDERAL OFFENSE

By Associated Press: Brownsville, Texas, May 14.—County Judge A. B. Crane of Wilbrey county and three other men, including Jesse Rose, John Swanner and Arthur Clark, were indicted by the Federal grand jury here on charges of intimidation of witnesses in the Wilbrey county penance cases, for which Raymond Teller, former sheriff of Wilbrey county, is now serving a term in Leavenworth prison.

The indictments were returned late Friday, but were not made public until noon today.

The indictment of Crane was a surprising turn in the intimidation charges, as his name had not previously been mentioned in connection with the intimidation charges. Rose, Swanner and Clark are out on bond.

Deputy United States Marshal Harold Jeffers notified Crane Saturday afternoon by telephone of the indictment, and instructed him to appear here Monday with bonds.

Court officials said it was not likely that the cases would come to trial at this time of court, which will end a week from today.

Investigation of the alleged intimidation was begun by the grand jury Thursday, a score or more witnesses from Wilbrey county being summoned. H. G. Hart, Wilbrey county attorney, and J. P. Currie, a nurseryman, who were government witnesses in the penance cases at Corpus Christi, and who are alleged to have been intimidated following the trial, were witnesses before the grand jury.

Two indictments each were returned against Crane, Swanner and Rose, and one against Clark.

"Corsicana Has It."

MORE FUNDS FOR RED CROSS RELIEF SUBSCRIBED HERE

The total sum subscribed by the citizens of Corsicana and a few sections of Navarro county to the flood and tornado relief carried on by the American Red Cross, is amounting the \$4,000 mark, with \$2612.95 subscribed for the Mississippi Valley flood sufferers, \$217 for the Rock Springs tornado victims and \$55 for the Garland and Nevada tornado victims.

The Rev. H. J. Ellis, local Red Cross chairman, sends off remittances from day to day and with a batch of receipts received by him Friday morning the following excerpt is taken from a letter which accompanied these receipts: "Surely your citizens and organizations are responding notably to the appeal you have extended. We are particularly proud of Corsicana for her sympathy and support. I hope you will express this to your people."

This will naturally be highly appreciated by the people of Corsicana, whose hearts have been touched by the suffering of the people in the stricken areas.

Subscriptions to the funds today follow:

For Flood Relief.
B. R. Wagner, pastor First Methodist church, Bloomington, Texas, \$5.00
Mr. M. W. Galtin, \$5.00
Rabbi Baruch Lebowitz, \$2.00

Previously reported \$2,601.95

Texas Storm Relief.
Mr. and Mrs. J. L. Halbert \$50.00
Previously reported \$15.00

Total storm relief \$65.00

Total to date \$3,612.95

NEGRO CONFESSES TO BURGLARIES AND IMPLICATES ANOTHER

That Corsicana is an unhealthy place for the criminal who habitually plies his nefarious practices has again been demonstrated by the apprehension of two negroes, Gus Tolbert and Millard Robertson, on charges of burglarizing several residences in Corsicana, by the Corsicana police department. The negroes were arrested on minor theft charges by the local police and knowing their past records, "Chief Knight" worked them over until a confession was forthcoming.

Back in the winter of 1917-18 the homes of W. D. Nolen, R. J. Jackson, Murphy Williams, Wm. Clarkson, Jr., J. S. Roth and others were entered. The crimes were finally fastened on Gus Tolbert, negro boy, who at that time was too young to be handled through the regular court channels.

On the night of June 15, 1921, Tolbert and Jarrett Blunt, another negro, entered the home of Mrs. Alexander on West Tenth avenue. They were sent to the penitentiary for short terms for this crime, after having been captured by the local police on August 12 of the same year and confessed to the crime.

The night of March 22, 1925, Jarrett Blunt and Arthur Gray burglarized the store of Miss Fannie Greenlee and secured many valuable dresses and women's clothing. These two negroes are now serving terms for this crime.

On the night of March 23, 1927, the homes of W. D. Nolen, former County Attorney B. W. George and Carroll Miller were entered and money and a flash light taken from the Nolen home, three pistols from the George home, and another pistol from the Miller home. The local police department has been working on these burglaries since that time, and while they were suspicious of Tolbert and Robertson, they "had nothing on them," in the parlance of the officers.

A few days ago these negroes were arrested on a charge of theft of a lawn mower, and before Chief Knight had finished grilling them Robertson had confessed that he and Tolbert entered the Nolen, George and Miller homes and that they would have entered the home of K. Wolens on the same night had it not been so far removed from the district where the other three homes were located. At the Nolen home Robertson stated that they expected to secure some diamonds he knew Mrs. Nolen possessed and that they also had hoped to get diamonds at the Wolens home should they have entered it.

Thus it will be seen that Chief Knight and his officers have kept before them the records of these evil doers and after persistent, if slow, work have fastened these crimes upon them. The negroes will be turned over to the county.

Another theft to which they confessed was the taking of the battery from the car of George G. Jester while it was in his garage on West Third avenue. This battery they took, they said, and placed in the car of a brother of Gus Tolbert.

**CORSICANA WOMAN
DIED IN HOSPITAL
FRIDAY EVENING**

Mrs. Gertrude Wimberly, aged 45 years, wife of F. R. Wimberly, 811 West Eleventh avenue, died in the Navarro county hospital Friday evening at 7 o'clock following an operation several days ago. The funeral services were conducted at the family residence Saturday afternoon at 2:30 o'clock with interment in Oakwood cemetery.

The funeral services were conducted by Rev. M. A. Turner, pastor of the Eleventh Avenue Methodist church.

Burialbearers were Dick Anderson, C. C. Best, Hugh Miller, D. M. Farham, Tom Hughes, L. J. Shephard and Chas. Langston.

CORSICANA GIRLS RECEIVE MEDALS FOR JOURNALISM WORK

Austin, Texas, May 13.—For their work on the Daily Texan, Texas University's newspaper, silver and gold medals were awarded to over thirty students. Among these were Sam C. Johnson, Martin Joseph B. Cowan, Sam Saba, Valdeia Moore, Lott, and Mattie Saller, Thorndale.

Bronze medals were awarded to Madeline Jaffe, Corsicana; Douglas LeMasters, San Saba; Pauline Nuckles, Lampasas, and Tillie Frances Young, Corsicana. Joe Cowan, San Saba, and Selmer Snodgrass of West were awarded bronze medals for their work on the "Texas Ranger."

**Former Dawson Girl
Dies in Texarkana**

Dawson, Texas, May 13.—Miss Laura Rose, aged 23 years until a few months ago a resident of the Eldorado community, died in Texarkana last Thursday following an operation for appendicitis and the body arrived in Dawson Friday and was buried in the Dawson cemetery Saturday. Rev. H. A. Conway, Baptist minister, conducted the funeral.

Surviving are her father, W. L. Rose, and several grown brothers and sisters.

FIRST TORNADO STRIKES VALLEY; DEAD: ONE COW

By Associated Press. Brownsville, Texas, May 14.—The first tornado ever experienced in the Lower Rio Grande Valley occurred Friday in the brush country in the extreme northern part of Cameron county.

The tornado cut a swath 200 yards wide through the dense brush, uprooting large trees and taking the roof off a Mexican shack.

The total casualties also were as near as could be ascertained, one cow.

COURT HOUSE NEWS.

From Friday's Daily: District Court.

The jury in the case of Jeff Jones, charged by indictment with forgery of a warranty deed, returned a verdict of guilty late Thursday afternoon and assessed the punishment at 10 years in the penitentiary. The case was tried once before and he was given five years. The case was appealed to the Court of Criminal Appeals and it was reversed and remanded, it was announced.

The case of M. J. Hartley, driving a car while intoxicated and violation of the liquor laws, scheduled to be tried today, were reset for Monday, May 23.

C. C. Raso pleaded guilty in the district court Friday morning to swindling and the jury found him guilty and assessed his punishment at two years in the penitentiary, but suspended the sentence and asked for in his plea. He was sentenced by District Judge Scarborough and was released.

Vernon King, negro, charged by indictment with assault with intent to murder, had the indictment reduced to aggravated assault in district court Friday morning and was fined \$50 and sentenced to jail for 60 days on his plea of guilty.

District Clerk's Office.
The following case was filed: Nattie Kindrick vs. Eleck Kindrick, divorce.

County Court.
Charlie Vinson, negro, plead guilty to theft in the county court Thursday afternoon and was fined \$10 and given a 10-day jail sentence.

R. C. Paschal plead guilty to swindling with a worthless check Friday morning and was fined \$5 and cost.

Warranty Deeds.

Minnie Kate Dismukes to Magnolia Petroleum Company, 99.5 acres Robertson County School Land survey, \$10 and other considerations.

**North Dakota Farmer
Takes His Own Life.**

By Associated Press. Cleveland, North Dakota, May 13.—Seyles Hastings, 50-year-old farmer, who shot his neighbor, W. F. Flint, to death yesterday and seriously wounded the latter's 16-year-old son, committed suicide in his granary today as he possessed advanced on his farm home.

Donald Hastings, 16-year-old son of the slayer, who witnessed the shooting, told posmen that his father shot Flint after a quarrel because the latter refused to release eight of Hastings' horses which he had seized when he found them grazing on his land. Immediately after the shooting, Donald said, the older Hastings returned home, told the other members of his family of the shooting and went into the granary where he killed himself.

Think Well

Before turning your money into a channel removed from your home town—Corsicana.

Read the Sun—get all the news

Hints for the Farm

By Associated Press: In feeding table scraps to a poultry flock, particularly one kept in a small backyard, it is important that the scraps be fed in troughs, preferably on a feeding board, especially in summer, or that some other method be used whereby the troughs and the place around them may be kept absolutely clean.

What becomes of abandoned land? The Forest Service suggests that much of the poorer, so-called marginal land, which has proved unprofitable for cultivation, can be put to work growing profitable timber crops, under proper forestry practices.

Average yearly farm living expenses per family have been found in the following states to be: New Hampshire, \$1,839; Vermont, \$1,552; Massachusetts, \$1,848; Connecticut, \$1,552; Kentucky, \$1,492; South Carolina, \$1,482; Alabama, \$1,615; Missouri, \$1,897; Kansas, \$1,492; Iowa, \$1,669; and Ohio, \$1,541.

A recent survey shows that of the average \$1,598 spent by the farm family every year, \$659 goes for food, \$235 for clothing, \$200 for house rent, \$40 for furniture and equipment, \$231 for operating expenses, \$61 for maintenance of health, \$41 for life and health insurance, \$105 for "advancement," \$41 for personal goods and \$3 for unclassified goods.

The more often a cow is milked, within certain limits, the greater the production. Cows milked three times a day are more persistent in their yield of milk than those milked twice a day. Preliminary figures show gains of about 18 percent a year from milking three times over milking only twice daily.

Pines are easily regenerated or made to grow again on the same land both by natural means following right cutting and by artificial means of sowing the seed or setting out small seedling trees.

In sections where green feed for chickens can be grown every month of the year it is well to have three yards, all of the same size; one in front of the house and two in the rear. The chickens can be kept in each of the yards for four months at a time or as long as green feed is available.

Ice Cream Supper

There will be an Ice Cream Supper at the Grand Tabernacle Friday night, May 20th for the benefit of the church. Everybody cordially invited.

CHICHESTERS PILLS

Ask your Druggist for Chichesters' Kidney and Bladder Pills. They are the best for all urinary troubles, such as Gravel, Gleet, Catarrh, etc. They are sold by Druggists everywhere.

**BARRY PUBLIC
SCHOOL CLOSED
FOR THIS TERM**

Special to the Sun.

Barry, Texas, May 15.—The Barry public school closed last night at the graduation of its Senior class. The class was composed of eight girls and one boy: Thelma Kemp, valedictorian; Fay Kemp, salutatorian; Estelle Sutton, Leola Sutton, Hazel Holcomb, Ballard Thomas, Roba Barnes, Maudie Keathley and Joe Worsham. Supt. Harrison of the Frost Public School delivered the address.

"Corsicana Has It."

ACHED ALL OVER

Was Suffering Dreadfully, Just "Wasting Away." Took Cardui, and Says It Helped Her.

Arlington, Texas.—A resident of this town for many years, Mrs. J. H. Jackson, says:

"I had suffered dreadfully with an aching all over my body. At times my head would give me so much trouble I could hardly stand it. I had been in bed for weeks and I looked like I was just wasting away."

"I took 9 bottles of Cardui and my strength began to slowly return."

"Since that time I have used this medicine a good many times and it has always helped me."

"At one time I took Cardui for several months regularly. I would be afflicted with sudden spells of dizziness when I could not stand on my feet. Everything would turn black before my eyes and I would feel as if I were going to faint. A time I would be quite nauseated, I turned at once to Cardui and took it till I was safely through."

Cardui is a mild, medicinal tonic made from purely vegetable ingredients. It has been in use for over 50 years, and in that time thousands of women have written that Cardui helped them back to good health.

Sold by all druggists. NC-18.

**More Milk Production
Expected in Southwest**

By Associated Press: Indications that there will be an increase in the milk production of Southern New Mexico, Arizona and the Imperial Valley in the near future were seen on a recent trip to that country by Dr. C. W. Larson, chief of the Federal Bureau of Dairy Industry. The number of cows and production are said to have been about at a standstill in this region for six or eight years.

**Bookkeeping Is Now
A Farm Requirement**

By Associated Press: Farmers have to be adept at bookkeeping as well as at growing and harvesting these days it seems. It's the vogue in California, anyway.

Last year 619 farms in 15 counties in that state kept cost of production records on ten commodities. This year 27 counties are keeping records on 14, including dairy products, peaches, grain, alfalfa, prunes, walnuts, apricots and pears.

EGGPLANT IN NEW RECIPE

By Associated Press: Eggplant is almost universally served in fried slices. By way of variation it may be stuffed and baked occasionally. Federal Home Economics experts suggest.

Many mixtures may be used. Most of them will contain a starchy material like bread crumbs, cooked rice or left-over macaroni and cheese.

Onion flavor gives zest to whatever stuffing is used. The onion should be cooked, but not fried, in

"Corsicana Has It."

HOUSEHOLD HELPS

By Associated Press: A good furniture polish can be made at home by mixing one part of raw linseed oil with two parts of turpentine. A little melted beeswax may be added.

Organdy is charming over slips made of baronet satin or over rayon fabrics. These should be well fitted, as they show through. Organdy trimming bands on tissue gingham dresses are attractive.

A few last season's apples and various vegetables stored over the winter are still on hand. These should be used up if possible before the new crop comes in. A good dish for this purpose is fried carrots and apples. Scrape the carrots and cut them lengthwise into slices. Pare the apples if you prefer. Core them and cut into slices about one-fourth inch thick. Sprinkle each kind of food by itself in a single layer in a large iron skillet, tightly covered. Cook until well browned on one side, then turn. Sprinkle with salt and sugar. Serve on a hot platter, in alternate layers.

Hollandaise sauce is excellent on such vegetables as asparagus and cauliflower, or on simmered fish or poached eggs.

For caramel, or burnt-sugar cake, use one cup of water, three cups sifted soft-wheat flour, one-half cup fat, two eggs, four teaspoons salt and four tablespoons caramel syrup.

When silk is spotted by water it may be because part of the finishing or weighting substance is dissolved. One method of removing such spots is to dampen the entire garment evenly and press it while still damp. This may be done by sponging carefully with clean water, or by shaking it in the steam from a briskly boiling tea kettle until it is thoroughly damp.

When garnishing a dish that is to be sent to the table choose, if possible, something that can be eaten that adds to the tastiness of the food. Parsley, watercress, celery leaves, lettuce and other green things are good. Do not over-garnish. A slice or two of lemon, to be squeezed over fish, or a little hard cooked egg with spinach, is enough.

When children come home from school and ask for something to eat it is permissible to give them a little extra meal in the form of plain, wholesome cookies or crackers and a glass of milk or fruit juice. This should not be regarded as "picking," for they often need nourishment at this time, especially if the noon lunch was eaten hastily and it is several hours to dinner time.

The best cleaner for piano and organ keys is wood alcohol. If this is not obtainable, clean, warm water, with a mild, neutral soap, may be used.

FOR WORKING PEOPLE

The best of workers get out of sorts when the liver fails to act. They feel languid, half-sick, "blue" and discouraged and think they're getting lazy. Neglect of these symptoms might result in a sick spell, therefore the sensible course is to take a course or two of Herbine. It is just the medicine needed to purify and restore the liver and ambition of health. Price 60c. Sold by Lee Drug Company.

**Soviet Farmers Sell
Government's Land**

By Associated Press: Tiflis, U. S. S. R., May 17.—Peasant farmers hereabouts have difficulty in understanding in spite of efforts of the communists to instruct them that the lands which they work and on which they live belongs to the state. They continually give the authorities trouble by selling or mortgaging their farms to others equally ignorant of the true state of affairs. Many arrests have been made but the practice persists. The peasants also have been known to transfer what they believe to be their title to the property as the result of gambling losses.

Good Eggs Are Described In Campaign For Better Product

By Associated Press: Strong shells means reduction of breakage losses. A good flavor is best maintained by keeping eggs in sanitary places. When broken, the whites should be clear and divided into two portions. If the quality is good, the thicker and firmer portion immediately surrounding the yolk will stand up well, while the thinner white section will tend to flatten out in the dish. The yolk should be of uniform yellow color and hold its form well.

So much for the egg after it is broken. The candler, a small instrument with an electric light, may be used to peer through the

Creameries Unite Win Co-Op. Success

By Associated Press: Minneapolis, May 17.—The fairly wide of co-operative marketing has touched the churn above which grandmother spun dairymaid romances.

Four hundred and two co-operative creameries, federated under the name of "Land O' Lakes Creameries, Inc., of Minneapolis, are exporting butter to all parts of the world in an organized marketing enterprise which recognizes only the California Fruit Growers as its equal.

The federation did \$39,020,000 worth of business in 1926 in butter, cream, buttermilk, powder, cheese, eggs and creamery machinery supplies. Its assets and working capital exceed \$900,000. It represents 84,000 dairy farmers in Minnesota, Wisconsin and Iowa.

In nine years the project has been developed from an idea born in the mind of a crossroads creamery secretary. For three years he discussed the matter with his colleagues and they spread the idea among co-operative creamery men. Finally in 1921 representatives of more than 200 creameries in the three states met and planned the campaign.

Districts were organized and field men employed. Carload shipping was accomplished. An office was opened in New York under a man familiar with butter markets. Experts in traffic management were added to the staff to prevent overcharges in shipping.

Today Land O' Lakes, Inc., ships butter not only to all parts of the United States, but to Haiti, the Dominican Republic, the British West Indies, Mexico, Panama, Venezuela, Colombia, Peru, China, Japan, Australia and the Philippines.

The butter, sealed in cans with certificates of quality and inspection printed both in English and foreign languages, is shipped in wooden tubs at frigid temperature. The volume of business is growing so rapidly that A. J. McGuire, general manager, says the 1927 figure will go well beyond that of 1926.

EGGPLANT IN NEW RECIPE

By Associated Press: Eggplant is almost universally served in fried slices. By way of variation it may be stuffed and baked occasionally. Federal Home Economics experts suggest.

Many mixtures may be used. Most of them will contain a starchy material like bread crumbs, cooked rice or left-over macaroni and cheese.

Onion flavor gives zest to whatever stuffing is used. The onion should be cooked, but not fried, in

butter or other fat, and then blend with the rest of the stuffing. Bread crumbs the experts say, should always be combined with the butter to make them rich before they are added to other ingredients. A recipe for stuffed eggplant:

One large eggplant; one teaspoon salt; four tablespoons chopped peanuts; two cups finely cut raw cabbage or cooked string beans; two tablespoons butter; one cup fine bread crumbs.

WEST TEXAS C. OF C. OPENED SESSIONS IN WICHITA FALLS TODAY

By Associated Press.
Wichita Falls, Texas, May 16.—The reform of the state taxing system and the state courts and curtailment of Mexican immigration were urged by high state and national government officials at the opening session of the West Texas Chamber of Commerce convention here Monday.

Before a crowd which packed a large circus tent serving as the convention meeting place, Governor Don Moody and James J. Davis, Secretary of Labor from Washington, laid before the convention his most important business matters. Moody characterized the present Texas system of collecting revenues as "antiquated, unjust and uneconomical" and declared that the system of dispensing justice in the courts had failed to keep abreast of progress in other lines.

Mr. Davis denounced attempts of "short sighted employers" to obtain cheap labor, and said Mexican immigration should be put on the same basis of restriction as European immigration.

Wichita Falls was full of bands and boosters from all sections of West Texas.

Moody Recalls State's Growth.
Governor Moody recalled the great growth of the state from the days of San Jacinto, Santa Anna and the Alamo, to the amazing progress of the present, and envisioned an even greater Texas.

"No country," he said, "offers greater opportunities than this state of Texas of which we are so justly proud.

"But there is one thing that must be done at all hazards. The government must keep its hand on the development of the state. Some men think that it is dangerous to mention government in connection with commerce and business. This is a false idea because the government means as much to you as the rain and sunshine mean to your crops. When the government progresses, business flourishes; when it fails, business fails.

Need Constitutional Changes.
The West Texas Chamber of Commerce has urged a tax survey. It shows that we need constitutional changes in order to make the taxing provisions more flexible and enable the Legislature to work out a more just and economical taxing system. That amendment comes up for your consideration at the polls next August.

"One thing about our present taxing system is that it costs too much to collect taxes. Another thing it gives no thought to the ability of the property owner to pay. We should have a system in which no man will be taxed to the breaking point. It should be a tax-saving program."

Courts Too Expensive.
The governor said that the courts are too expensive; that they waste time and money, and that they need improvement so that they will keep up with progress in other lines.

The subject of Secretary Davis' talk was "The fallacy of cheap labor." He said the greatest part of labor is engaged in the production of what 25 to 50 years ago were considered luxuries.

"Let the people stop buying these so-called luxuries, pianos, radios, automobiles, carpets and you have a panic," he said. "If you can keep the man who works prosperous you have a prosperous country. The reason America is prosperous is because we have the highest wages in the world.

"If prosperity and low wages went together Mexico and China would be among the most prosperous countries in the world. If you want a panic, talk in terms of cheap labor.

Three hundred thousand Mexicans came into the country in the last three years. It is wrong to look for the door against European immigration and open the back door to cheap labor from Mexico. I am in favor of putting the entire country on the same basis of selective immigration."

Wichita Falls, Texas, May 16.—A plea for further diversification of crops as the only salvation for the farmer was made by Arthur P. Duggan of Littlefield in his annual address as president of the West Texas Chamber of Commerce here Monday.

Especially did he appeal to West Texas farmers to develop the State dairy industry.

"Our vision," he said, "is to see the farmers of West Texas have a sufficient number of milch cows on the farms, not only to supply their own families with that most wholesome food, milk and butter, but to furnish the entire State with its needs, and to keep in Texas the \$10,000,000 annually sent to Northern states for butter alone and the additional approximately \$20,000,000 sent out, never to return, for cheese, canned milk, and other dairy products.

Have Cotton Complex.
"The farmers of the South, including Texas, have the habit of raising cotton so thoroughly implanted in their systems that they are slow to make changes though the diversification idea is taking root in almost every community, and will grow more rapidly as actual profits are realized from its practice.

"The prospects are there will be no reduction of cotton acreage in the State of Texas this year in spite of all the diversification entreaties. It is very regrettable, for it looks like financial suicide for the farmers to plant a large acreage in cotton again, with the present tremendous carry-over and low prices.

"West Texas has a tremendous

BAYOU DES GLAISES BREAK FLOOD GREAT SECTION LOUISIANA

By Associated Press.
New Orleans, May 14.—The levees along Bayou Des Glaises crumbled today before the assault of the panned up inland sea which has been striking at them for the past week.

Hundreds of workers who had been fighting against the irresistible rise of the waters, gave up in despair and abandoned their homes for refuge concentration camps.

An airplane survey of the Bayou Des Glaises district showed but a few score workmen, still struggling in the hopeless fight to save the embankments, while the waters tore through the walls in at least four major breaks and possibly a dozen minor breaches.

By Associated Press.
Alexandria, La., May 14.—The Bayou Des Glaises levee broke this morning at Kleinwood plantation in the middle of the Big Bend.

Reports of the break were verified by telephone message from Hamburg at 1 p. m. The location is 170 miles from New Orleans on the opposite side of the river.

Levee workers at Hamburg said the break will give relief at other points on the Big Bend. The crevasse will flood additional territory east of Bordelonneville. The crumbling levees added to the task of rescue workers. Much of the danger zone already had been evacuated but even with the waters eating steadily through the protecting walls, many still remained in the section, having placed their faith in the strength of the dykes.

By Associated Press.
Baton Rouge, La., May 14.—The Big Bend levees along the Bayou Des Glaises are being honey-combed with crevasses, an airplane survey of the region reported to Flood Relief Director John M. Parker, this afternoon showed. With the exception of a few score of men still working on the levees the section has been evacuated, it was said.

By Associated Press.
New Orleans, May 14.—Water from the Bayou Des Glaises crevasses was hourly adding to the total square miles of submerged lands in Louisiana today, engulfing the famous "Sugar Bowl" and the Evangeline country in its seaward march. The break was 150 miles Northwest of here, on the West side of the Atchafalaya river.

The latest collapse alone will increase the agricultural loss of the state by \$10,000,000, and boost the total of the state's homeless to nearly 200,000. When the Bayou Des Glaises waters reach the Gulf of Mexico more than 1,000,000 acres of Louisiana will be submerged in a vast lake, 225 miles long and ranging from 50 to 100 miles in width.

The crevasse at Moreauville was reported to be 600 feet wide, with a wave of water eight to ten feet deep sweeping through the gap. Army engineers estimated last night that 100 square miles had been inundated.

Country Being Evacuated.
A naval aviator flying low over the country behind the crevasses late yesterday, said that the waters would reach Melville within 36 hours, but by that time few people would remain in the territory.

Coast guardsmen in charge of rescue work declared that they believed no lives would be lost. Former Governor J. M. Parker, flood dictator, made a similar prediction.

The crest of the flood in the Texas basin was moving steadily advantage over other sections in the new method evolved this year of gathering cotton with the sled. The sled will be perfected and improved and cleansing machinery attached to the gin stands so that cotton harvested in that way will be good as any."

Recommendations by President Duggan included:

"Continue with all the vigor possible the program of crop diversification.

"Follow up unrelentingly the tax equalization and tax survey program sponsored by our organization this year. To my mind there is no more important question before the people of Texas today. A tax system that will permit 99 counties out of 254 counties in this state to draw out of the state treasury for school purposes more than \$3,000,000 annually more than it pays into the treasury for all purposes, is all wrong and needs changing. I believe that the report of the tax survey commission shall have been made it will be found that there are plenty of sources of taxable wealth in Texas to abundantly care for all the State's needs without additional raises in the tax rate.

Want Tax Laws Changed.
"Exert every influence possible for the passage of the constitutional amendment regarding the tax question that will be voted on by the people of Texas in August this year.

"Continue the opposition to the increase in fire insurance rates.

"Exert every effort toward the perfection of the common schools and institutions of higher learning in our state, and particularly in our regional territory."

southward, the water at Newellton in upper Texas parish remaining stationary.

Roads in the immediate vicinity of the crevasses were lined with refugees fleeing before the rushing tide, and throughout the night boats patrolled the levee line to take off those who went to the dykes for safety.

Refugees Save Little.
For the most part refugees brought with them only the clothing they wore.

Along the main line of the levees holding the Mississippi within narrow bounds from Angola and Old river south, work continued with forces concentrated at Plaquemine Point, 5 miles south of Baton Rouge, and at Torres where the dykes were being raised hurriedly to prepare for the approaching crest.

New Orleans continued to be regarded as safe. The situation in Mississippi gradually was improving, more than 3,000 refugees returning to their homes from the Yazoo City refugee camp, while from other areas flood victims were returning to begin rebuilding farms.

Land of Acadians Threatened by Flood

By Associated Press.
New Orleans, May 14.—The land of Evangeline where the Acadians found a haven a century and a half ago is menaced and their descendants are going into exile again.

The picturesque country along the Bayou Teche is in the path of the raging flood waters pouring through the Bayou Des Glaises crevasses and as the British drove the Acadians from Grand Pre, the Mississippi is driving their descendants from St. Landry, St. Martin and St. Mary parishes.

Unlike the Acadians of Nova Scotia, who were banished from their fertile farms for all time, the exile of their descendants is temporary. Where the fields are green with growing crops of sugar cane, cotton, rice and corn today, in a few days a muddy torrent will course its way to the Gulf, wrecking crops and spreading devastation upon the land.

Baton Rouge Threatened.

Alexandria, La., May 14.—Water a foot deep is pouring through a new crevasse on Bayou Rouge to day three miles north of the Cottonport break and 170 miles from New Orleans, according to word received here.

The new break, which is about 200 feet wide, occurred last yesterday at Enterprise.

**FLOOD AND STORM
SUFFERERS GIVEN
AID BY CITIZENS**

The following additional flood and storm relief funds were added to the local Red Cross subscription list since noon Friday:

Total	\$66.00

**SOUTHERNERS TAKE
PUKOW, OPPOSITE
CITY OF NANKING**

By Associated Press.
Shanghai, May 16.—Pukow, on the Northern bank of the Yangtze river opposite Nanking, fell to the Southern Chinese forces Sunday morning, says a wireless message from Nanking.

The Northerners shelled the town with shrapnel after it was occupied by the Southerners.

**AGED INMATE OLD
FOLKS HOME OF ODD
FELLOWS DIED TODAY**

Henry C. Bracken, aged 80 years, inmate of the I. O. O. F. Old Folks Home, died at the home Friday. E. Lodge, died at the home Friday evening at 8 o'clock and the remains were taken to Cleburne where interment will be made sometime Sunday.

No near relatives survive.

**Wholesale Grocer
Dies at Amarillo**

By Associated Press.
Amarillo, Texas, May 16.—Everett L. Higginbotham, 51, president of the J. E. Bryant Wholesale Grocery Company, died suddenly at his home here early this morning. He had been a resident of Amarillo for 24 years.

Among the survivors are his father and mother of Holton, Kansas, and a daughter, Mrs. E. O. Dunaway of Houston, Texas.

REPRESENTATIVE OF SACASA IN MEXICO DENIES PEACE STORY

By Associated Press.
Mexico City, May 14.—Dr. Juan B. Sacasa, head of the Liberal regime in Nicaragua which has been fighting the Diaz conservative regime, was quoted today by Pedro Zepeda, his representative here, as denying that an agreement has been reached by which the Liberals would lay down their arms. Sacasa made public a dispatch which he said he had received from Dr. Sacasa reading:

"Explicitly deny reports that an agreement has been reached between Stimson (Henry L. Stimson, personal representative of President Coolidge) and the Liberals to disarm the people who support my government.

"Neither my government, nor the Sovereign Nicaraguan people, nor the constitutional army, will accept Diaz (conservative) as president. "The fatal terms set by the invaders to the Liberals for the laying down of their arms expires today (Friday), but as all Liberals are fighting together like a single man, we are expecting inevitable bloody developments.

"Notify the world that the men who form the army of Nicaragua, who have been fighting under great hardships will march to death rather than to dishonor."

Zepeda, in making public the message, declared that the world soon would witness the greatest power openly fighting the small Nicaraguan republic, and that news would soon reach the United States that the blood of the youth of the two countries, which do not hate each other, has been spilt on the battlefields.

**CORSET SALESMAN
SAYS IS EXAMPLE
OF WHAT SIN DOES**

By Associated Press.
New York, May 14.—The sentences of death hanging over the heads of Mrs. Ruth Snyder and Henry Judd Gray, have affected them in antipodal manner, it was revealed today.

Gray, perusing his Bible in jail in Long Island City, sees himself "one of the best examples of what whiskey, lust and sin will ultimately lead one into."

He is described as resigned to his doom. Mrs. Snyder, the Queens Village housewife sees herself a victim of injustice and is prepared to fight against the death sentence.

Judge Opposes Death Penalty
Judge Townsend Scudder, who imposed the sentences on Mrs. Snyder and Gray today was quoted by the New York American as opposing the death penalty in general. "What good," he was quoted as asking in an interview, "will result from sending these people to the chair? Would it not be better to confine them to an institution where they may engage in profitable work?"

"It is true that I am opposed to capital punishment, in and form. But, if the wisdom of the people demand it, I believe the execution should follow more closely the verdict."

Gray Addresses Public

Gray's picture of himself as "best example" was sketched in a note he addressed "To the public." The note said: "I wish to take this opportunity of thanking the many kind Christians from all over the country who took time to pray for me and to send me letters of sympathy and literature of faith. Would that I had time to answer each one. But you all know I have not been in vain for I have been saved."

"May the day come when people will clamor and fight to enter the churches to hear God's word as they did to enter this building to hear such sordid words of shame and sin. Would that every man and woman who is not living in keeping with the commandments take heed from this case an turn to God for forgiveness."

"I am one of the best examples of what whiskey, lust and sin will ultimately lead one into."

Many Pitiful Cases
"I have seen so many pitiful cases here as an inmate of this institution as to what liquor and improper relations will exact in payment that help my fellow men to see the light of God as their own salvation."

Mrs. Snyder, Gray testified, does not believe Gray.

Gray and Mrs. Snyder began today arranging for their trip to Sing Sing's death house. They are sentenced to be electrocuted the week of June 20.

**MILL WORKERS IN
SOUTH PRAISED FOR
THEIR JUDGMENT**

By Associated Press.
Atlantic City, May 14.—Resolutions adopted today by the American Cotton Manufacturers Association, at the concluding session of its annual convention, included one expressing "great pleasure in and unqualified approval of the splendid spirit of co-operation manifested by the employees of the textile industry of the South."

The resolution recites that this spirit "has already brought to them the fruitage of a higher standard of living than they have ever previously enjoyed. The good sense and sound judgment of our native Anglo-Saxon help have responded admirably to the economic demands of the world and have persistently refused to yield to radical leadership or the whisperings of would-be reformers."

SAN ANTONIO GETS VIVID PICTURE OF BATTLES IN ETHER

By Associated Press.
San Antonio, Texas, May 14.—Blue and red army airplanes clashed in the clouds over San Antonio today in a quick moving battle in which almost every type of plane used by the army was represented.

The "dog fight" followed a bombing raid made by Blue army planes early this morning into territory north of here and is one of the preliminary skirmishes between the two armies, which are supposed to be advancing toward each other for a general infantry artillery-air engagement.

Under the theory upon which the maneuvers are based, the Red army north of here recently declared war on the Blue nation, in which San Antonio is located and both stations are massing their forces for the battle and are advancing toward each other.

Accompanied by flights of swift pursuit and combat planes, nine huge Blue Marine bombers early today flew into Red territory, bombing rail heads, bridges, supply depots and ammunition dumps. Opposing Red planes harried them throughout the trip, but were unable to mass sufficient strength to drive the raiders back until the middle of the morning when the bombers were overtaken just over San Antonio by twenty enemy combat and pursuit ships.

Darting about the lumbering bombers like rockets, the Red planes succeeding in delivering a thorough attack before they were engaged and driven away by the Blue combat planes.

The demonstration gave San Antonio a beautiful picture of aerial warfare.

**SOUGHT ON CHARGE
SLAYING OFFICER HE
KILLS TWO OTHERS**

By Associated Press.
Redfield, S. D., May 13.—Death at his post at noon ended a posse hunt for Walter Chrisman, alleged bootlegger, who early today shot and killed two officers seeking to arrest him for the wounding of a prohibition agent here May 5.

While 400 armed possemen searched for the fugitive, he shot himself to death in a straw stack about five miles from his home, where he had killed the two officers.

By Associated Press.
Redfield, S. D., May 13.—Charles Bintliff, federal prohibition agent of Mitchell, S. D., and Charles Halpin, a deputy state sheriff, were shot to death early today by Walter Chrisman, a fugitive from justice, when they sought to arrest him at his farm home near here.

Bintliff and Halpin, with three other officers, had surrounded the Chrisman home, expecting resistance from Chrisman, who is wanted on a charge of having slain R. W. Labrin, a federal officer of Huron, S. D. Chrisman stepped from the house and opened fire, killing Bintliff and Halpin, and escaped in the darkness after emptying his revolver at the other three.

Possemen are searching for Chrisman throughout the county. And rewards totaling \$1,000 have been offered for his apprehension.

**NUMBER IMPORTANT
TESTS PLANNED FOR
AREA AROUND MEXIA**

Special to the Sun:
Mexia, Texas, May 16.—Increased confidence in the crude-oil market due to recent steps to stop the downward trend of the price is expected to start wildcatting again in this vicinity. A number of important tests are being planned at this time.

Interest in the Groesbeck vicinity centers in the Henry Bell oil test being drilled by Deering on the Hatchelor lease. This test, two miles north of Groesbeck, is reported about 2850 feet, having just left the chalk. A slight delay has been encountered due to losing part of the drill stem, which caught on the surface casing. This test showed a chalk of 340 feet.

The Magnolia Petroleum Company is coring its Stroud No. 4 at about 3150 feet, where a sand formation was found. This test is south of the Confederate reunion grounds, south of the Mexia field and on the same side of the Nava-sota river.

The Pandum Oil Corporation's Bassett at Kosse is drilling the plug and will be balling soon. Results of this important 4500 foot test will be known soon.

**Veteran Texas Editor
Died Houston Monday**

By Associated Press.
Houston, Texas, May 16.—June P. Miller, 60, veteran Texas newspaper man, editor of a suburban weekly newspaper and former president of the Texas Editorial Association, died at his home here Monday. He is survived by a widow and three daughters.

SITUATION THAT THREATENED PEACE HAS BEEN AVERTED

By Associated Press.
Manila, May 16. The "Empire" of the Ilocos, Flor Intrenchado, self proclaimed "Emperor of the Philippines," whose domain, though not recognized by any government, included perhaps as many as 400,000 subjects, seemed today to have fallen. And with its fall what threatened for a time to be a serious revolution apparently had been averted.

Constabulary advisers from Iloilo, principal city of the island of Panay, south of here, said that 58 of the leaders of Intrenchado's armed bodyguard which surrounded his "palace," a bamboo shack near Iloilo, for the avowed purpose of resisting with their lives any attempt to remove their leader to an asylum, had been arrested, and the menacing situation brought under control.

Number of Followers Arrested
In addition, 467 of the arrested leaders' followers have been arrested in the province of Occidental Negros in connection with an attempt to seize control of four towns last week.

These two acts are believed by the constabulary to have crushed the revolutionary move. Although Intrenchado took no part in the Occidental Negros disturbances, the authorities look upon him as having unwittingly been the spirit behind the movements.

Despite the objection of his followers to his confinement in an asylum, Intrenchado himself has expressed a desire to receive treatment as soon as possible, and it is expected that he will leave for Manila within a few days. His personal guard is to be disbanded and told to go to work, leaving the old man alone with his private secretary, a young high school student.

Empire Built on Promises
According to the authorities, Intrenchado built his "empire" upon promises of an immediate Utopia in which it would not be necessary to labor, his subjects merely having to eat, sleep and enjoy themselves.

Intrenchado's activities included no bolshevism and no threat against Americans, being confined merely to deluding the always credulous and excitable mobs. It is expected that most of those who participated in the Occidental Negros attack will be freed.

The ring leaders, however, will be tried for murder as well as for sedition, an officer having been killed in the fighting.

The 58 arrested at Iloilo will be tried for sedition.

**EFFORTS DISSOLVE
HOUSE OF DAVID ARE
UNDER WAY IN COURT**

By Associated Press.
Benton Harbor, Mich., May 16.—The State's move to bring about dissolution of the House of David colony, on the grounds that it is a "haven of vice and a nuisance, operating under the guise of a religious organization" got under way in Circuit Court today in the form of receivership proceedings.

More than 100 witnesses were to testify for the State as to the character of the institution and its leaders, Benjamin and Mary Purnell, in whose name the colony property, valued at more than a million dollars, is listed.

The witnesses included a number of former colonists, by whose testimony prosecution attorneys said an attempt will be made to show flagrant immorality existed in the colony, and that members, recruited from the rural districts of Australia and America, were purloined of their life savings by Purnell.

The number of defense witnesses was not announced, but counsel for the colony has been engaged for several months in taking depositions from persons in many sections of the country and they indicated a mass of statistical testimony will be read.

**LARGE BODIES OF
ARMED MEN SAID BE
IN REVOLT MEXICO**

By Associated Press.
Tucson, Ariz., May 16.—The Arizona Daily Star today published a statement received from Adolfo de la Huerta, former president of Mexico, in Los Angeles.

600 armed men now are engaged in fighting the Yagui government in Mexico.

De la Huerta was quoted as saying in the hands of Yagui Indians, which recently entered the United States at Nogales and were informed, did so "by mistake" and that only the interception of Yagui couriers saved Nogales, Sonora, from an Indian attack.

Declaring that the bulk of the Yagui army remains in Southern Sonora, De la Huerta said that he had recently been visited by a representative of 26 rebel generals, all of whom have proclaimed him their leader, operating in several Mexican states, who informed him that the revolutionary movement has become intensified.

WHISKERY WINNER OF GREAT KENTUCKY DERBY SATURDAY; GREATEST CROWD WAS PRESENT

Churchill Downs, Louisville, Ky., May 16.—Whiskery, of the White new stable, won the fifty-third running of the Kentucky Derby Saturday afternoon as only a champion can and will. The winner's time was 2:06.

He came from the rear to win in the stretch by a short neck from Osmond, of the Winner's stable, with E. R. McLean's Jack a well-cooked third, Jack did so doing early running and in so doing burned himself out. He was all but beaten in front at the half-mile, but when Whiskery finally challenged him, he folded right up and called it a race. However, it was Osmond who really ran the McLean horse in the ground.

The former rushed up to a challenging position between the half and three-quarters pole, carrying Whiskery with him. They finally caught Jack in the stretch turn at which point Osmond went into the lead and looked like the winner. As they made the turn for home, Osmond was a length and a half in front. He was going strongly, but not strong enough for in his rear came pounding a real stake horse by the name of Whiskery and he was not to be denied.

The game fish swims upstream. The real fighter takes one to give another.

The good horse wins in the stretch.

Whiskery, product of a mating that would gladden the heart of a true eugenicist, was the winner of Kentucky's great derby of a mile and a quarter and he won in the stretch as only a champion can.

Eighty yards out he was running second and looked as though he intended to stay there, but when the heart is large, the lungs are expansive and the mind convinced that victory alone is worth while, the foot simply can't go wrong.

Whiskery didn't Saturday. The son of Whisk Broom II and Prudence was only beginning to run when he saw the judges in their coupole, leaning far out as though to meet the horses half way, and to a small colt that meant only one thing—It was time to do more running—as much more as possible—so he did.

Lashed on by "Pony" McAtee, Whiskery simply lifted his knees up under his chin and in a half dozen backjumps was up there fighting nose to nose for the nod that meant \$51,000 and the immortal fame that only a Kentucky Derby may endow.

He was fighting with Osmond, and the man who hasn't seen thoroughbred fight has seen virtually nothing yet. A sixteenth away, Osmond was a half length in front, then it was only a head, next a neck and finally a nose. But Osmond was a good horse, too, and he proved it with that thrust of the eager nose that suffers the rack and pain of the stretch duel and learns to love it, nevertheless. For a few strides that nose reached out a foot between Whiskery's. Ten yards farther and that foot had become six inches. Another ten yards, it didn't exist at all, and with a stride the lead changed noses altogether. It was Whiskery.

Racers Headed for Belmont.
By Associated Press.
New York, May 16.—Equine aristocrats were headed from Louisville today for the race meeting at Belmont Park which opens Thursday. The departures from Louisville included Whiskery, winner of the Derby Saturday; his stable mate, Bostonian, winner of the Preakness at Pimlico; Seaplane, Flow, Black Panther, Rip Rap and Saxon.

In all probability the sextet will meet next in the Withers, at one mile, to be run in the early part of the Belmont meeting.

**MONTGOMERY-WARD TEAM WON
OVER PURE OIL TEAM SUNDAY
AFTERNOON IN 10-INNING GO**

The Montgomery-Ward nine, Wells, 2b 3 1 1 6 3 0
Port Worth defeated the Pure Oil club here Sunday afternoon at Municipal Park 11-9, in a 10-inning game which was featured by the terrific hitting of May, third sacker of the visitors, who poked out two home runs and a two-bagger. His first homer being in the fourth inning with two men aboard and the second circuit smash being in the tenth inning with one man on the path to win the game. His two bagger came in the first inning.

Another feature of the game was in that two left handers started the game and ended it. Seventeen hits were made off the delivery of the local flipper while only seven were garnered by the locals.

Errors played important roles in the majority of the scenes. A good crowd was present for the game.

HAND PICKED PARTY WILL TRAVEL NORTH ON SPECIAL TRAIN

ALL TEXAS SPECIAL TO ADVERTISE STATE WILL ACCOMMODATE ONLY 142

Special to the Sun.
Dallas, Texas, May 16.—Representative Texas business men who make up the personnel aboard the "All Texas Special" on tour of eastern and northern cities in June, are to make a special call upon Col. Richard H. Edmonds, editor of The Manufacturer's Record, during their stop at Baltimore.

Col. Edmonds long ago recognized the possibilities of Texas' resources and the visit will be in appreciation of his service to the state in bringing attention thereto. Reservations for places on the train are now being made. The ten de luxe Pullmans will accommodate 142 passengers. Each will have a full section, with two to the drawing room. Gov. Dan Moody will head the party.

Chambers of Commerce executives in many Texas cities have already sent in the names of representative men in their several communities, to whom invitations to join the party are being extended. These executives are co-operating and in position to give full information.

J. L. Greer, Denison, Texas, chairman of the transportation committee, urges that all intending to make the tour, send in reservations early, so that there may be no disappointment on account of the limited capacity of the train. Requests for reservations should go to Mr. Greer, with initial checks for \$50, applying on the transportation charge. The balance, \$200, is payable prior to June 10. Checks should be made to Col. C. C. Walsh, Treasurer.

The "All Texas Special" will leave on the night of June 19. The tour will conclude on the night of July 4, when the party will again be in Texas. Tickets, at the price named, apply from six concentration cities—San Antonio, Houston, Abilene, Wichita Falls, Ft. Worth and Dallas.

Objects of the tour, as succinctly stated by Will C. Edwards of Denison, in recent interviews, carried in eastern papers, are "to disseminate accurate information about Texas, and to dispel any erroneous idea that the Texas of today is merely a frontier state of cattle and Rangers."

Executive heads of the "All Texas Special" organization include Lowry Martin, Corsicana, general chairman; J. L. Greer, Denison, transportation; Cato Sells, Fort Worth, preparation and presentation of resource statistics; and Sam F. Harben, Richardson, publicity.

Cities to be visited will be Kansas City, St. Louis, Chicago, Detroit, Cleveland, Buffalo, Niagara Falls, Boston, New York, Philadelphia, Baltimore, Washington, Pittsburgh, Cincinnati and Memphis.

HIGHWAY SIGNBOARDS WILL BE REMOVED IN LIMESTONE COUNTY

Special to the Sun.
Mexico, Texas, May 16.—All signboards must be removed from the right of way of the state highways in Limestone county, according to W. P. Alexander, county highway supervisor for the state, who says that after June 1 the state crews will remove the signs as they work the roads.

The signboards are in violation of the state laws, are unsightly and often obstruct the view. Signboards on private lands, however, are not to be disturbed, unless they are a hazard to traffic.

You

will not regret it if you buy a watch or diamond at Fred Mitchell Jewelry Store.

Stop That Itching

Use Blue Star Soap to clean the affected parts, then apply Blue Star Remedy. It penetrates the skin, kills out the germs, stops the itching at once, and restores most cases to a healthy condition. Eczema, Tetter or Cracked Hands, Poison Oak, Ringworm, Sore Blistered Feet, Sunburns, Old Shin Sores—all of these have yielded to its wonderful healing power. 60c and \$1.00 a Jar. Size 25c.

Manufactured by Star Products Co., Cameron, Texas.

EAST TEXAS WILL SHIP FIRST TOMATOES OF SEASON SHORTLY

Special to the Sun.
Longview, Texas, May 16.—East Texas' first car load of tomatoes from the 1927 crop is being loaded at Woodlake, Trinity county. These tomatoes will be shipped to northern markets by the Trinity County Tomato Association within the next day or so.

The first crate of tomatoes packed was expressed by the association to R. M. Kelly, president of the East Texas Chamber of Commerce. These tomatoes were grown by the Willard Farm Company.

According to M. J. Wright, secretary and treasurer of the Trinity County Association, a heavy and profitable crop is indicated. The Trinity county growers, by marketing cooperatively, are enabled to obtain a steady market at reasonable prices. They have adopted a policy of grading and standardization which has created a large demand for their produce.

CLASS OF EIGHTEEN TO GRADUATE FROM WORTHAM SCHOOLS

Special to the Sun.
Wortham, Texas, May 16.—The Wortham High School will graduate a class of eighteen Friday evening, May 20. According to statements of the school authorities this is the most efficient class that has been graduated. This group has received the best training that the school has been able to give. Music will be one of the special features of the graduating program. Musical numbers rendered by members of the graduating class will include the class song, a vocal solo, cornet solo, piano solo, saxophone solo, clarinet solo, and a ten piece orchestra. For a class of this size to display such varied talents, all of which have been fostered and developed in school, is an indication that the school authorities have more in mind than merely preparing the boys and girls to enter college.

The candidates for diplomas are: Adlene Bounds, Leola Davidson, Wourine Deering, Lillian Henderson, Hazel Laird, Evelyn Plunkett, Lydia Riley, Rochelle Wolens, Leola Watson, Fay Garrettson, Travis Leverett, Vernon Lyles, Ray Mathison, A. T. Meador, Lawlis Phipps, Walter Wolens, Robert Zoda, and Lillian C. Henderson.

Lydia Riley, the honor graduate, who is only 16, will finish with 181.2 academic credits and three honorary credits. The honorary credits are in Band, Piano, Orchestra and Glee Club. She is graduating with the highest average that a pupil has made in the Wortham school for several years.

Ray Mathison is the second honor student and has the highest average among the seven boys in the class. Several other members of the class have made exceptionally high grades.

LARGE CROWDS AT METHODIST CHURCH AT SUNDAY SERVICE

REV. F. P. CULVER TO DELIVER
BACCALAUREATE SER-
MON TYLER GRADUATES

Rev. F. P. Culver, pastor of the First Methodist church, has accepted an invitation to preach the baccalaureate sermon for the Tyler Junior College in a joint meeting in Tyler next Sunday night and Rev. Joe Patterson, junior pastor, will fill the pulpit at the First Methodist church next Sunday night.

There was a total of 696 present at the First Methodist Sunday School Sunday as compared with an attendance of 595 the same Sunday last year showing an increase of 101, but compared with an attendance last Sunday of 746 showed a decrease of 50. The attendance last Sunday was the second largest for the year.

In the Weller Bible Class there was an attendance of 63 this compared with 35 the same Sunday last year shows an increase of 28, but compared with an attendance of 65 last Sunday shows a loss of two.

In the Adult Department the services were led by J. T. Newsom and the hospital move of the Methodist church known as the Golden Cross Society explained and subscriptions to this cause taken. Mr. Newsom also taught the Weller Bible Class.

T. H. Benton was elected secretary for the Adult Department of the Sunday School and he will carry these duties in addition to being assistant to Geo. Boyd as secretary for the Weller Bible Class.

At the morning church hour the choir sang a special anthem and Rev. Mr. Culver preached. The auditorium of the church was comfortably filled for the morning hour.

At the night hour, Rev. Mr. Culver preached and the choir sang in anthem.

Among the announcements made at the morning hour by the pastor was one to the effect that the Parent-Teacher Association would meet Wednesday afternoon with a special program; prayer meeting Wednesday night, and that on Sunday night, May 29, in the church a pleasant would be given, entitled "The Forgotten Man." And that on July 5 the Daily Vacation Bible School would be started.

Rev. Mr. Culver took occasion to say that with the closing of the Standard Training School, that another mile post in the activities of the church had been passed, saying that so far the church and Sunday School had successfully carried out each project outlined in the church and Sunday School program adopted at the first of the year.

The morning service closed with J. T. Newsom, local director of the Golden Cross, presenting the matter and giving some information on the hospital work of the church. Envelopes were passed through the congregation for registration in this work and the response was very generous.

This will be an annual affair with members of the church and Sunday School resuming their pledges each year for the hospital work of the church and the enrollment is along the lines of the enrollment of the National Red Cross.

AGED RESIDENT OF FROST DIED EARLY MONDAY MORNING

FUNERAL FOR MRS. ELSIE
MCCLURE WILL BE HELD
TUESDAY

Special to the Sun.

Frost, Texas, May 16.—Mrs. Elsie R. McClure, aged 86 years, wife of J. B. McClure, resident of Frost for over 40 years, died at the home of her daughter here, Mrs. Jim Bason, Monday morning at 7:15 o'clock and the funeral will be held sometime Tuesday from the First Baptist church, the hour having not yet been named.

She is survived by her husband and seven children as follows: W. D. McClure, L. J. McClure, C. N. McClure, all of Aust. Mo.; Mrs. Ida Demond, St. Louis; J. E. McClure, Mrs. Effa Barham of Blooming Grove, and Mrs. Jim Bason of Frost.

Deceased was born in Tennessee but came to Texas when she was a young girl where she resided since. She was a member of the Baptist church for many years.

CAR STOLEN FROM BEATON STREET IN BUSINESS DISTRICT

The 1926 Ford touring car of Judge Ransom, career and president of the Corsicana baseball club, was purloined by persons unknown sometime Saturday. Mr. Ransom parked his car after the noon hour in front of the First National Bank and when he returned Saturday night about 10 o'clock, it was missing.

The theft was reported to officers.

Interurban Round Trip Rates Reduced For Summer Months

It has just been announced by M. R. Fewell, General Passenger Agent of the Texas Electric Railway, that, beginning Sunday, May 15th, and continuing through the summer months, the round trip rates on Sundays between all points will be considerably reduced. These tickets will be good going and returning only on the date of sale.

In commenting on the reduction Mr. Fewell said, "To give out trons a real bargain during the summer traveling season, he company offers these reductions on round trip rates on all Sundays during the summer. The service, speed, and safety of our interurbans will remain at the same high standards, only the rates being reduced. We just want to encourage more round trip travel on Sundays during the summer when folks have the time and desire to go somewhere."

Texas Electric Railway operates hourly interurban service between Dallas, Denison, Sherman, Waco, and Corsicana.

SAN ANGELO MAN WILL BE CANDIDATE LIEUT. GOVERNOR

By Associated Press.
Austin, Texas, May 16.—Representative J. Herschel Boggs of San Angelo will be a candidate for Lieutenant Governor to succeed Barry Miller, it became known here today.

Biggs virtually consented to heed the urging of his legislative friends who brought up a petition during the regular session of the legislature asking him to run.

He is the second in the race. Representative R. M. Johnson of Palestine got into the running several weeks ago.

SPALDING GOLF BALLS—the tournament winners.—City Book Store.

DEFENSE RESTS IN CASE OF OKLAHOMA WOMAN ON TRIAL

MRS. BISHOP AND FORMER CONVICT BOTH RECALLED TO STAND MONDAY

By Associated Press.
Oklahoma City, May 16.—Defense counsel for Mrs. Edith Bishop rested their case today.

Mrs. Bishop was recalled to the stand twice morning as defense and state picked up odds and ends of testimony preparatory to submitting the case to the jury.

Bert Meredith, ex-convict, whose testimony last week involving Ray Terrell, fugitive bank bandit, as bishop's slayer, was ruled out, also was recalled. Meredith admitted that he went under the assumed name of Bert McCormick when he was in Amarillo recently. Defense attorneys admitted, after Meredith said he did not know that Meredith had gone to the Bishop home here and looked it over before he testified as to Terrell's alleged version of the killing.

AGED RICE WOMAN LEAPS TO DEATH TO AVOID SNAKE IN CAR

Mrs. Jane Edmondson, aged seventy, of Rice, Texas, was fatally injured Saturday afternoon when she became frightened by the discovery of a snake in the car and jumped from the automobile. She died at 8:30 Saturday night, and funeral services were held in Rice Sunday afternoon.

The car was driven by her daughter, Mrs. H. C. Bartlett. The accident occurred on the Rice-Randall road about one mile from Rice. Mrs. Edmondson saw the snake as it crawled out from under the front seat toward her, and she jumped with fatal results.

SENATOR MOORE OF GREENVILLE SPRINGS SENSATION IN SENATE

By Associated Press.
Austin, Texas, May 16.—Demand for investigation of activities of S. M. N. Morris state superintendent of public instruction, was made in the Senate today by Senator Joe Moore of Greenville, who charged Morris with "openly advertising himself as a candidate for Governor."

"He spent the state's money in going to Rockwall to advise school trustees whether they should use local funds to subscribe to a newspaper," Moore declared. "and has bought hundreds of dollars worth of stamps with state money to circulate letters telling how certain Senators voted on certain questions."

He demanded a halt in Senate business for "a complete investigation of the demand." No action was taken, however.

Moore was successful with an amendment striking out a \$5,500 item in the department of education's biennial budget for "college examiner." He attacked several other items, charging that some created "new and useless jobs."
